ABOUT ME

I am a student currently studying at a college. I have a keen interest in watching movies and traveling. Watching movies allows me to explore different stories and perspectives, which I find fascinating and sometimes thought-provoking. It's a way for me to unwind and immerse myself in different worlds created by filmmakers. Traveling, on the other hand, excites me because it exposes me to new cultures, people, and places. It broadens my horizons and gives me a deeper understanding of the world around me.

WORK EXPERIENCE

- Akboria Limited 2022-2024
Assistant Manager
 - I have been working in a confectionery company for the past ten years, starting as an assistant manager and gradually taking on more responsibilities. In my role, I oversee daily operations, manage inventory, and ensure product quality meets our high standards. I also collaborate with other departments to streamline processes and improve efficiency. Over the years, I have developed strong leadership skills and a deep understanding of the confectionery industry. I am passionate about creating delicious products that bring joy to our customers and contributing to the company's growth and success.
